

## ***What happens at a BRICK KIDS birthday?***

I come 15 minutes early to set up.

Your guests will be wowed as they enter the room and are treated to the sight of a table (or the floor) covered in **LEGO®** bricks! As they have free play time I am hard at work building the birthday child's name out of **LEGO®** bricks. It is completely custom; with color, style and pieces chosen by the birthday child. The completed name sign is a wonderful keepsake gift of the day, and something the whole family can cherish. We can even customize it to your child's favorite colors! (Or the décor of their room!) For many parties, I start building the name sign before the party to maximize activity time with the kids.

Next comes the **LEGO®** brick fun activities! Everything in **BRICK KIDS** is themed. So if you have a construction party we will build a construction site and a giant tower- can it reach the ceiling? Middle Ages themes will include a huge castle that we all make together. STAR WARS™ may include building Hoth base and a contest to build a giant lightsaber- how long can we build it before it breaks? Expect lots of excitement, amazing projects, and uproarious laughter. Completed group projects make amazing backdrops for cool birthday photos. Have your camera at the ready!

At the end of the party it will take us about 15 minutes for clean up.

## ***What does my child get to keep?***

The birthday child gets to keep their custom name sign.
